Sea Voyages LTD (DBA Sea Trek and Snuba Cayman)

Huge opportunity to purchase a well-run and profitable water sports tourism business in this growing industry, in recent years this company has served just under 20,000 guests.

The price has been DRAMATICALLY reduced for a quick sale.

The company has been in business for over ten years. Long standing relationships with all major cruise ship companies and a very good relationship with them, the company also serves stay over guests. All equipment as well as 2 boats and a truck are included in the sale. This is a turn-key operation with major potential for further growth which serves the mass market. No real estate included in the sale.
